☞ The Bangor Jeffersonian, editorially aggrieved by its correspondents complaints of us for our article relative to the late loco Congressional district Convention. We gave the facts as they were stated to us by persons who were present and who had every opportunity to know what was done, and how it was done, and we gave the conclusions necessarily, as it seemed to us, resulting from those facts. We find too, that the editor of the Bangor Democrat, sustains with much ability the general statement of facts we gave, and arrives at the conclusion that Major Strickland was regularly nominated as member of Congress. It does not seem to be easy to get away fairly and logically from the positions of the Democrat touching this matter.

We have always deemed the Democrats good authority in all matters of doctrine, discipline and usage of the loco party, and it now maintains with much ability, and a great array of facts and figures, of statement and principle, of usage and obligation, that Maj. Hasting Strickland of this city, is the regular democratic nominee for Congress on this district, and as such it calls upon all members of the party to give him their votes.

It boldly and fearlessly takes the ground that Maj. Strickland was nominated by acclamation, the change from ballot to acclamation having been effected by the friends of Mr. Waterhouse, and they have now no right to repudiate the mode. The Democrat argues that to deny the nomination of Maj. Strickland necessarily involves the officers of the Convention in the grievous wrong of having made up a false report of the doings of the Convention. The Democratic Chairman of the Convention announced the result of the vote, and their declaration was placed in the record of the Convention as a fixed fact, not to be disputed or disturbed.

The Bangor Jeffersonian, on the contrary, assumes, with equal correctness and less good temper, and backs up its position with a considerable array of facts and statements, that Isaiah Waterhouse, Esq., of Newport, was regularly nominated as the candidate of the loco convention for Congress and that his nomination will be supported at the polls by every man in the district who has just claims to be a member of the democratic party.

The Augusta Age the State Organ of the party seems to be especially obfuscated as to which of these candidates ought to be hoisted at its mast head, and is not disposed to hang both at the yard arm, and it therefore chooses to wait orders from Washington, when it will probably go in for ——— Mr. Watterhouse.

☞ The grand ratification jubilee at Niagara Falls, next Tuesday, engages the attention of the whigs far and near, and active efforts are making to secure attendance from every section of the country. The New York Tribune states that General Scott has consented to be present himself. Other papers, however, make a different statement. The Philadelphia North American says, positively, that "for obvious reasons of propriety," Gen. Scott will not attend; and the Buffalo Commercial Advertiser, heartily approves of his decision not to be present, as only which might have been expected from his well known sense of propriety."

☞ Capt. Cornell and crew late of schooner A. Nickerson, lost on Montmillerod, June 14th, came passengers in the British schooner Rover which arrived here this morning from Nassau.

☞ Almost every man in the city hates dogs—unless they are his own. Hogs running at large, especially are great nuisances and when they get into gardens are destructive to the crops and to the beauty of the borders, rooting up weeds and plants. With these facts fresh in his mind, we wish to consider an incident we witnessed a day or two since. A person with whom we are very intimate, had removed the pig into a new pen, which he supposed secure, but which had one stick dropped out in it that allowed the pig to escape. He ran and visited first in one garden and then in another until he had gone some distance and was bursting his self in the garden of a gentleman, who, upon discovering him, took him in his arms and marched forth to find the owner, and in the heat of his fiery indignation at the loss of eight cents offered to compensate him. If this is not a strong case of neighborly kindness then we shall despair of ever finding such a case. We mean to be neighborly, but really we fear that the pig's head would have been more likely to break the pig's head than to take him to the owner in our arms.

☞ A gentleman yesterday brought to our office, a handsomely formed tree top, from a McLaughlin sweet last spring, but which had been blown over on account of the grafting cloth being suffered to remain upon the tree after the adhesion of the scion, and thus preventing its enlargement. In the month of June we published a caution to our readers, to remove the grafting cloth. We have sometimes seen trees ruined by allowing the thread or wire of tags to remain on the tree. We would now advise every one to examine carefully every tree, for the purpose of seeing that no article obstructs its growth.

☞ The Bangor Democrat, in alluding to the false report set in motion at Hampden and Dixmont concerning Mr. Washburn, and which we noticed a few days since, very frankly declares that such a report against Mr. Washburn is unworthy of notice, for the reason that "there is nothing to be said against Mr. Washburn's private character." This is fearing honorable testimony. And as it comes from a strong political opponent, we trust that it will serve to shut the mouths of ill slanderers against the fair fame of so worthy a man as the Representative in Congress from this district.

☞ We have received a copy of a journal partly in type and partly in manuscript, entitled Cold Water-Cure. It is a rather unique affair, on a letter sheet, and contains a strong argument in favor of the water way to health, and for furnishing to the sober-sided world a share of innocent fun. We are reminded in scanning its pages of that sublime saying,

"Of all sad words from little atoms grow."

The whole arrangement, preparation and labor of the periodical's issue are performed by Eli Bartlett, a little fellow not yet nine years of age. We do not know how often this paper is issued, but we should guess that it appeared daily in the proof sheets do not seem to have been revised.

☞ The British Government has presented to Captain W. H. Howard, of the packet ship Daniel Webster; to Captain Levi Marston, of the brig Harriet, and to Captain Browne, of the ship "Star of the West," severally beautiful gold medals, as a testimonial of appreciation of their exertions in saving the lives of the crew and passengers of the British ship Undorn. The medals are beautiful specimens of art, bearing upon one side the portrait of Queen Victoria, and upon the other, appropriate inscriptions.

Temperature of the Bottom of the Sea below the Gulf Stream.

Lieutenant John Rodgers, in command of the Coast Survey hydrographic party off the Florida coast, states that in running soundings off the vicinity of Sombrero Key, south of Cape Florida, to the depth of one hundred and sixteen fathoms, specimens of the bottom brought up retained a temperature of 68 deg. the surface water being 76 deg. and the air 81 deg.

☞ Henry Flagg, Esq., brought to our office yesterday, several pieces of wood, cut from the timbers forming part of the Baron De Castine's Fort at Castine. The remains of these timbers are in a good state of preservation though they have remained there for location some two hundred years. There are interesting relics of the times in Maine.

☞ It is stated by the Montreal Colonist that the population of Upper Canada, according to the census lately taken, amounts to 950,580. The population of Lower Canada is 904,782, from which it appears that the population of Upper Canada is 45,798 more than Lower Canada by 66,748; and that the population for the whole Province is now 1,855,362.

☞ Messrs. E F Duren & Co., have received a beautiful song set to music, entitled "I am going there," or the Resurrection Era, written and inscribed to the readers of "Uncle Tom's Cabin," by John S. Adams, and published by Oliver Ditson, Boston.

It is a sweet song preserving a vein of touching by the memories of sweet Eva, who has a place in the hearts of the readers of "Uncle Tom's Cabin."

☞ Mr. Kerr, United States Charge d'Affairs, was at San Juan de Nicaragua at last advices, having just returned from Guatemala and San Salvador, whither he had been to exchange the ratification of treaties long since concluded between those States and the American Government.

☞ The Colonization Journal publishes a list of three hundred and thirty-five persons who have been emancipated and emigrated to Liberia since February, 1851. The number of owners who emancipated these slaves is about forty, of whom four are clergymen.

☞ We learn that Mr. Gilmore of Brewer, last season sowed five acres of winter Wheat. The crop has succeeded finely, and is the best wheat ever raised in Brewer, and will be harvested in a few days.

☞ The Shawmegan Carion says the Moosehead Lake is surrounded by some of the most beautiful scenery in the world, and is fast becoming one of the most fashionable summer resorts.

☞ Of the four hundred and sixty-six deaths in New York city, last week, three hundred and twenty were of children under ten years of age.

☞ The Salt Tribune states that Messrs. T D Hammond, Wm M Ellery and David Brooks have been appointed Commissioners on the part Boston Water Power Co. to locate the dam at this city.

☞ The United States Senate in Executive session, last night, confirmed the appointment of Mr. Dimmick as postmaster in the city of Salem.

CONGRESS.

WASHINGTON, July 21.

In the Senate, Mr Clark, of Rhode Island, introduced a resolution calling for information respecting the Mexican boundary commission.

The resolution was adopted.

Mr Sumner offered a resolution which was also adopted, calling for copies of all the correspondence with foreign governments in relation to a reduction of Ocean Postage.

Mr Shields moved to take up the bill granting land to States for the benefit of indigent insane.

The Senate refused to take up Miss Dix's bill granting land to the indigent insane.

On motion of Mr Shields, the resolution of the House fixing the 16th August for the adjournment of Congress was taken up. A long debate ensued. Mr Smith moved an amendment, fixing Tuesday, 31st August, for the adjournment. Messrs. Shields, Cass, Gwin, Hamlin, Borland and others, opposed the 16th, while Messrs. Soule, Rusk, Bell, Pratt, Butler and others, were in favor of the day fixed by the House, throwing all blame on that body in the event of the public business and appropriation bills not being disposed of in time.

Mr Stockton favored keeping the resolution in the Senate till something was done for the white laborers of the north, who were ruined in consequence of the neglect of Congress on the tariff question.

Finally, Mr Smith's amendment was agreed to, 28 to 23, and the resolution thus amended, to adjourn August 31st, was passed.

The bill concerning the payment for surveys of private land claims in California, was taken up, shortly after which, for want of a quorum, the Senate adjourned.

In the House, Mr Johnson of Tennessee asked leave of the House to offer a resolution calling upon the Secretary of War, also upon the Secretary of the Navy, to report the number of army and navy officers about the Capitol, and the duties performed by them. Mr Walsh of Maryland, raised objections.

The House then took up the bill, in favor of granting the right of way to all railroads and plank roads passing through the public lands of the United States.

The bill was amended, but before being finally disposed of, the morning hour expired, when the House went into Committee of the Whole, Mr Houston moved to take up the Civil and Diplomatic Appropriation Bill.

Mr Seymour of New York, moved to take up the River and Harbor Bill.

Mr Seymour's motion was then carried and the bill taken up.

The yeas and nays were ordered on Mr Houston's motion, while it was declared lost, by yeas 47, nays 92.

Mr Seymour explained the course of the Committee on Commerce. In framing this bill, the majority were opposed to entering into any general system of internal improvements; they wanted to present such a measure as would meet with the approbation of the good sense of the House and country, providing only for the wants of commerce at such localities and great depots where trade is already centered. After advocating the constitutionality of these appropriations, he said the amendment in the bill was little short of one and a half million of dollars, or less than the extent by half a million of the commerce destroyed on the Northwestern lakes during 1851, for the want of such improvements as the bill designs.

Mr Moore of Louisiana, spoke in favor of the appropriations for deepening the mouth of the Mississippi and removing the Red river raft.

Mr Sackett alluded to a dulect in the bill, which he said did not make provision for the commerce of Lake Ontario, and he gave notice that he should propose an amendment, to keep the work at Big Sodus Bay in a reasonable state of preservation.

Mr Taylor moved that the committee rise, with view of offering a resolution to terminate the debate.

Mr Disney trusted his colleague would not press the motion, but allow opportunity to discuss this important measure.

Mr Taylor replied, and referred to the fact that Congress is now within a month of closing the session, that there is a great press of general business and that this bill has been pending for four weeks.

Mr Mead thought that while the committee showed a disposition to confine themselves to the merits of the bill, the application of the gag law by the majority would be unjust to the minority, and said if the bullies to be passed it should be passed now, and quickly, in time for the Senate to act upon it; and to prevent this bill, as was one last session, from being lost for the want of time, let us sit here in the day that we may do the public business.

Mr Stanley gave notice of a substitute for the bill, word for word with that lost in the Senate for want of time.

Mr Meade said it was plain, from the vote on the preliminary question, that it is the determination of the House to pass this bill, and he complained that, while every other State has been provided for to some extent, Virginia has been entirely overlooked, because the Virginia delegation have constitutional scruples on this subject, and have not appeared before the Committee on Commerce, to urge the claims of that State. This should not prevent those who have no constitutional scruple from doing right to Virginia. While he could not vote for the bill, there being many unconstitutional features in it, it was his duty to urge others to do so.

Mr Stanley interrupted, and said, "My substitute provides for Virginia."

Mr Meade replied he was aware of that, but he would prefer this bill, with an appropriation for Virginia in it, to the gentleman's bill, with an appropriation for that State on the principle that he would prefer the lesser to the greater evil.

Mr Taylor by request, withdrew his motion.

Mr Seymour explained why the committee did not put in an item for Virginia. The reason was, that none of the delegations of that State had appeared before the Committee on Commerce, and because there were no estimates from the proper department.

Mr. Marshall, of Kentucky, commenced a speech, but had not proceeded far when he yielded to a motion that the Committee rise, which prevailed, and the House adjourned.

☞ The Free Sellers of Ohio are moving for a State Convention, to which John P Hale is to be invited.

Destructive Fires at Calais and Baring.

CALAIS, July 23d.

Yesterday, a fire caught in the barn of Mr. Levi Whitney, (Whitney, Peabody & Co.) which destroyed the barn and dwelling house, together with a fine horse, 3 large hogs, and several tons of hay. Loss some $3000. Insured for $1000.

This morning, about four o'clock, one of the mills in Baring, St. Stephens side, was discovered to be on fire, and there being a fresh breeze it spread with great rapidity, defying all efforts to stop its progress. At this writing, there has been destroyed seven single saws, five gangs, and seven lath mills, owned by Messrs. G. M. Porter, McFail, Staples, S. T. King, Hooten & Burnham, and D. & H. N. Hill & Co. Also some seven or eight dwelling houses and stores, 20 flatboat cars and a large quantity of lumber. Loss cannot be less than $100 thousand dollars. The fire is still raging. The mills on the American side are safe as yet. The amount of insurance on the property lost not known as yet.—Telegraph and Mercury.

WASHINGTON, July 22.

Hon. John P. Kennedy has accepted the appointment of Secretary of the Navy.

Hon. C. Sherman, of Ohio, is talked of as the Free Soil candidate for the Vice Presidency.

California Items.

The Webber and Coon Hollow Canal cost $20,000; is fourteen and a half miles long, and pays monthly $7000—27 per cent on its first cost.

The Gold Hill Canal cost $9,285, is ten and a half miles in length, pays monthly $4,443, or 48 per cent on its first cost.

The Bradley, Berdan & Co. Canal, at Diamond Springs, cost $12,000, is ten and a half miles in length, and pays monthly $2,197, or 18¼ per cent on its cost.

The Rock Creek Canal, at Nevada, is 8 miles long—cost $16,000, and pays monthly $4000, or 40 per cent on its original cost.

The Coyote Ditch, at Nevada, is six miles long—cost $16,000, and pays monthly $6,000, or 37½ per cents on its cost.

And lastly the Deer Creek Canal, at Nevada, is eight miles long, and cost $20,000, and pays monthly $5,673, or 27½ per cent on its first cost.

Difficulties with the Chinamen in El Dorado county, are reported. Numbers of Chinamen, in passing to the mines, have been stopped and ordered back.

On Weber Creek, tents full of merchandise have been destroyed by the excited miners.

It is feared that the Kings River Indians and the Keweahs, are in league with the wild tribes in the mountains; if so, we may anticipate trouble.

It is stated that the excitement in Oregon, in relation to the Queen Charlotte Islands gold mines is unabated; but the farmers are about putting in their crops, and do not like to leave their farms.

Captain Folger, who has visited the Island, represents the gold as lying in among the hills and reaching down to the shore. The Island is claimed by the Hudson's Bay Company.

FIRE AT HOULTON.—Last Monday night a large part of the buildings at Houlton belonging to the United States, and formerly occupied by the garrison there, were consumed. They were undoubtedly set on fire. The buildings burnt were the commissary store, officers' quarters, theatre building and one half of the soldiers' barracks, covering the west and north wing of the square. The building probably cost the government over $20,000.—Mercury.

Will open at Market Hall, on MONDAY EVENING, July 19th, for a few days only.

THIS Painting is without doubt the greatest work of Art ever exhibited in this Country, being painted on nearly 20,000 square feet of Canvas at an expense of upwards of $15,000. It represents the principal events in the History of our Country, for a space of about 400 years, extending from the landing of Columbus in 1492, to the battle of New Orleans in 1815, embracing as it does a greater variety of scenes than any other subject that could be presented—giving a correct history of our country from its settlement to "auspicious colony" to its present position "occupying the highest pinnacle of National Glory."

The Proprietor feels confident in saying an evening cannot be more profitably and pleasantly spent, than in acquiring a correct knowledge of our Country's History.

Principle Artist—Mr. E. P. Barnes, of N. York
Musical Director—Prof. Lamont.
Delineator—Dr. A. J. Thompson, of N. Orleans

N. England Truss Manufactory

JAMES FREDERICK FOSTER,
MANUFACTURER OF

Ratchet and Spiral Trusses,

307 *Washington Street*, 307,
BOSTON.

ALL the various approved trusses constantly for sale. Ladies waited on by Mrs CAROLINE D. FOSTER, who has had twenty years experience in the business.

Strangers in the city will please take notice, the odd numbers and the even numbers are on opposite sides of the street, it being 446 opposite to the subscriber's residence, 447, where he will keep a full supply of Ready Made Trusses, for Gentlemen and Ladies, Youths and Infants. Ab opium, and Supports of five or six different kinds and such as Hull's, Chapin's Spinal, Potter's, Fitch's, Ingell's, &c., &c.

Ladies waited upon by Mrs. Caroline D. Foster at the above place.

The following certificate from Dr. John C Warren of Boston, was given 16 years since, but will last forever:

BOSTON, January 1, 1835

Having had occasion to observe that some persons afflicted with hernia, have suffered much from the want of a skillful workman to accommodating Trusses to the peculiarities of their cases, have taken pains to inform myself of the competency of Mr. J. F. Foster, in supplying the deficiency occasioned by the death of Mr. Heath. After some months of observation of his work, I am well satisfied that Mr Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to these important articles.

JOHN C. WARREN, M. D. Boston.

CERTIFICATE. The following certificate is from Professor Stuart, of Andover Theological Seminary:

The undersigned having occasion to employ Mr J. Frederick Foster, of Boston, in making and fitting Trusses for the relief of Hernia, takes great pleasure in recommending him to the favorable notice of such persons as may be afflicted with that and similar complaints. Mr. Foster's success in the manufacture, and adapting them to the body, giving ease and comfort to the wearer, surpass (as far as our experience goes) any other manufacturer of the article.

The numerous testimonials which he has received, together with the recommendations of that eminent surgeon, Dr J C Warren, is a sufficient guaranty for all who may favor Mr. F. that his instruments will give entire satisfaction, and he will satisfy all reasonable demands for an equitable compensation.

M. STUART.

Bangor Air-Tight COOKING STOVE

THE best Cook Stove ever introduced to this or any other people.

Having received the sole agency of this very desirable Stove, I take great pleasure in offering it to my customers and the public. This Stove was invented expressly for this eastern market, by three experienced and expert Stove manufacturers of Maine. Exeter & Whittier, who knew, and have appreciated the wants of the enlightened people. It is now offered to the public with the fullest confidence in its merits, and its superiority over every other Cooking apparatus ever introduced. Its conveniences for Boiling, Broiling, Frying, &c., are not surpassed, and its extensive and beautiful Oven for Baking and Roasting, will at once recommend itself to the Ladies. One very important feature is, it has very few and smooth castings, and being manufactured in this city, can at all times be repaired, if ever necessary, at a trifling expense without necessitating one to wait for castings to be received from New York, Rhode Island, or elsewhere. Every Stove is warranted one year, and one not giving entire satisfaction may be returned and the money will be refunded after 30 days' trial.

—ALSO—

A great variety of other patterns of cooking Stoves, such as the

Our State, Bay State, Empire State, Granite State, State of Maine, &c.,

All or any of which will be sold at extremely low prices.

Elevated Oven Stoves—Hampden 3 and 4 Boiler and two Oven—Boston two oven Stoves, Forest Queen &c—and that very beautiful pattern of Garden Parlor Cook Stove, and in fact every variety of Stove for Cooking or warming, worthy of notice, can be found at the Granite Street Store and Furnace Depot, No 16, 17, and 19.

CARRIAGES!

Patronise Home Manufactures.

WE are manufacturing Light Carriages of every description, which we are prepared to warrant equal to any to be sold in market without any exception. We have purchased the right to use a patent attachment for Four Wheeled Carriages, whereby Carriages can be made to turn in a very small compass, describing a circle of 5 feet, leaving the springs as near as practicable in a horizontal position, as the wheels do not come in contact with the body. We wish it understood that we hold ourselves responsible for the failure of our work, in consequence of the use of poor stock or work.

We also manufacture Elliptic and Side Springs of a superior quality.

Jobbing in every branch promptly attended to at fair prices.

25,000 Sold per Year!

The Unsurpassed and Unsurpassable

Bay State Stove,

OF SIX SIZES, of heavy and smooth castings—price from $16 to $50—celebrated for its whole cooking apparatus, carrying off the smoke in broiling, and not to be exceeded in baking, frying, boiling, &c., &c., or in durability and economy—may be had, as heretofore, at the well known and long established

Stove, Furnace and Range
DEPOT,
Nos. 30 & 32 MAIN STREET, and 2 and 4 WALL STREET, OF
N. JOHNSON,

Who is SOLE Agent, and always has been, for this market, for the sale of the celebrated Stove above named, of which 25,000 were sold the past year, and of which some 30,000 will not be more than sufficient to supply the demand the present year.

The BAY STATE is sold and warranted as usual. Returned after an unsatisfactory trial in 30 days, the price paid will be refunded, together with interest and cost of returning.

Persons purchasing the BAY STATE, and desiring repairs, are not subjected to the trouble of sending to Rhode Island or New York for castings, nor to wait to Bangor for them, AS I HAVE THEM ON HAND.

A CHALLENGE OF $50

is proposed, that 50 Stoves of six sizes, of any other pattern than the BAY STATE, for which I am sole Agent, cannot be produced which will compare with the 50 I now have on hand, in thickness and smoothness of Castings, in heat facility and economy of broiling, baking, boiling, or other cooking requisite.

☞ The public are especially requested not to mistake a Stove called the "IMPROVED BAY STATE," which is cheaper and inferior article of thinner and less durable castings, and which is sometimes advertised without the word "Improved" as a prefix, for the original and genuine BAY STATE, which has been so generally and thoroughly tested and admired.

All other kinds of STOVES constantly on hand, as above, which will be sold at reduced prices.

PATENTS.
American and Foreign Office,
AGENCY FOR BUSINESS
WITH U. S. PATENT OFFICE,
WASHINGTON.

No. 22 State Street, Boston.

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U. S. Patent Office; in accordance with the 10th Section of Act of 1837.

Having relinquished the Agency for the transmission of Models and adopted a more expeditious mode of sending them to the Patent Office, whereby a Hundred is procured about six weeks earlier than formerly, and all Drawings free of expense—prepare Caveats, Specifications and Assignments—and all the necessary Papers and Drawings for Patents, and render advice on legal and scientific matters respecting the same. Patents secured in Europe and other Countries.

By application at the office, inventors are saved the time and expense of a journey to Washington and delay there, as well as personal trouble in obtaining their patents. They also have the advantage of free daily exhibition of their inventions and consulting in respect to their matters of paramount importance, in order that no time may elapse unnecessarily in the transaction of their applications and claims. The experience gained by a long practice, and extensive collection of rare works, decisions, &c., on mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time the office has been established together with accurate, clear, kept of inventions patented, at Washington, enable the subscriber to afford to inventors assurance of prompt, Patents, assistance and information which is not otherwise procurable, in the attainment of the same.

R. H. EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them speedy and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents.

DR. FONTAINE'S BALM
OF A
THOUSAND FLOWERS.
For the Toilet, Nursery &c. Bathing, and General Purposes.

THIS is prepared by its own ingredients, as recommended by the faculty of almost every European city, in Louis Philippe's Court, and Paris, and obtained a gold medal. Wherever used in New York, Philadelphia, and Boston—It is the greatest luxury and only preparation could wish for the improvement of bathing for manliness and personal embellishment, and the delightful sustenance it imparts to the complexion.

We give a few of the prominent properties of the **Balm of a Thousand Flowers**, which will be found to equal the best.

FIRST.—The Daily preservative effect of the Balm upon the Complexion.

And establishes in its stead purity and health, as the roses which, both by the changes of age, or freaks of nature, or disease, have been obscured and concealed—it clears the skin, and draws to the surface all impurities, and every species of pimples and blotches, also removes tan, sunburns, yellowness and freckles, imparting to the face its original purity, and an unsurpassed freshness, rendering it clear, smooth, and white.

SECOND.—It promotes the Growth and increase of the Hair, causing it to Curl in the most exact style of ease.

It clears the head from dandruff, giving vigor, health and life to the very roots of the hair.

THIRD.—It is a superior article for Shaving, being superior to all other options of Soaps, Creams, Pastes, &c.

As a DENTIFRICE for cleansing the Teeth it is by far the most medicinal of any Powder ever discovered, preventing decay of teeth, purifies the breath, and renders the teeth as white as alabaster. For bathing, softening hands and face, it produces sweetness of body, cleanliness, health and strength, and to prevent eruptions &c., there is no article more suitable than this BALM. It may be used cold or warm, hard or soft water.

The genuine unless signed by the Proprietors.

BRANT'S INDIAN
PULMONARY BALSAM
The Great COUGH REMEDY.

Many years of success more than a Hundred Thousand Cures of Consumption, Coughs, Colds, Whooping Cough, Croup, Asthma, Bronchitis, Influenza, Spitting of Blood, Pain in the Side, Back or Limbs, and all diseases of the Throat, Lungs and Breast, leading to Consumption of the Lungs, have proved the value of this unrivalled remedy. We need not publish the names of those who have used it, or the certificates of its wonderful cures, as it is well known throughout the United States, that no other medicine has ever received such unqualified approbation from the afflicted. Many of the most eminent Physicians have given it their sanction, and use it in their own families in preference to any other. Clergymen, Lawyers, Merchants, Editors, Statesmen, Judges, Governors, Members of Congress, and many others, have given certificates of its virtues, which are in our possession, and may be seen by calling on the Agents.

Extract of a letter from Hon. Levi Woodbury, Judge of the Supreme Court of the United States, dated Portsmouth, N. H., Sept. 1, 1851.

"I have used Brant's Indian Pulmonary Balsam in my family, and have found it a safe and excellent remedy for Coughs, Colds, Influenza, Whooping Cough, Croup, Asthma, Bronchitis, Spitting of Blood, Pain in the Side, Back or Limbs, and all diseases of the Throat, Lungs and Breast, leading to Consumption of the Lungs, and I have no hesitation in recommending it to the public as the best medicine I have ever known for the above complaints."

Extract of a letter from Hon. Jeremiah Mason, dated Portland, Me., Sept. 1, 1851.

"I have used Brant's Indian Pulmonary Balsam in my family, and have found it a safe and excellent remedy for Coughs, Colds, Influenza, Whooping Cough, Croup, Asthma, Bronchitis, Spitting of Blood, Pain in the Side, Back or Limbs, and all diseases of the Throat, Lungs and Breast, leading to Consumption of the Lungs, and I have no hesitation in recommending it to the public as the best medicine I have ever known for the above complaints."
